

53. (Twice Amended) [The method claimed in claim 37, further comprising the step of:] A method for transmitting data to selected remote computing devices, comprising the steps of:

transmitting data from an information source to a central broadcast server;  
preprocessing said data at said central broadcast server;  
transmitting preprocessed data to remote receivers communicating with said computing devices;

instantaneously notifying said computing devices of receipt of said preprocessed data whether said computing devices are on or off, further comprising the steps of:

monitoring said transmissions utilizing multiple viewers;  
filtering said transmitted preprocessed data;  
post processing said preprocessed data; and  
notifying said user instantaneously of receipt of filtered postprocessed data;  
utilizing a remote control interface for controlling said viewers.

#### REMARKS

In section 16 of the Office Action, the Examiner asserted that claims 53-55 were objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims. Applicant respectfully notes that claim 53 has been rewritten in independent form. Claims 54 and 55 depend from claim 53. As such, Applicant respectfully submits that claims 84-155 also include allowable subject matter and are in condition for allowance.

In section 17 of the Office Action, the Examiner asserted that claims 51-52 and 84-155 were allowed. In order to facilitate the immediate issuance of claims 51-55 and 84-155, the remainder of the pending claims have been cancelled and presented in continuation applications.
